

We are excited to announce that a Jackson Memorial Elementary school second grade classroom will be participating in a pilot project for Wythe County Public Schools. The project's focus is to strengthen home / school connections by bringing a visual "tutor" into the home. Activities and lessons will be recorded and downloaded onto an iPod Touch for students to take home and share their classroom experiences with you. We hope that this will help understanding homework and assignments once they get home. Right now, the number of iPods available will be limited so priority will be given to those students in need of extra help or were absent on the day a new skill was introduced.

The iPod touch is the property of Wythe County Schools and your child will be responsible for it while it is checked-out. We will need your help in ensuring that the iPods are used and cared for responsibly. There is no videotaping of children, only teacher and instructional material.

If you have any questions regarding the pilot project at JMES, please call Mrs. Watson at 699-0160.
